

*When Precision Matters...Since 1972*

- **Precision Machining**
- **Quality Assured**
- **Customer Satisfaction**
- **Competitive Prices**

**Golis Machine** is ready to help your company!  
As a certified precision machining manufacturer, we specialize in  
complex machined parts for a wide range of industries.

**Industries Served**

Medical • Aerospace • Defense • Energy • Automotive

Golis Machine Inc. is a woman owned, ISO 9001:2015 certified and ITAR registered precision contract machining manufacturer, located in Montrose, Pa. Family owned and operated since 1972, we specialize in CNC Turning and CNC Milling complex shapes and tight tolerance machined parts. With significant experience using standard and exotic materials and the latest tool technology, Golis Machine Inc. can produce precision parts to your blue print specifications for the Aerospace, Medical, Defense and Energy industries.

Let us be your single source supplier. If you have a project that you would like quoted, give our sales representative a call today at 570-278-1963 and let us show how we can help you with your next project.

### **How Golis is different:**

- ▶ “Relationships with our customers” is our #1 priority! Many of our customers have been with Golis Machine for over 30 years.
- ▶ The team at Golis Machine is made up of specialists that will become your company’s right hand men.
- ▶ We will work with your company’s ever-changing supply needs, provide just-in-time manufacturing, and handle your spikes and demands.
- ▶ Golis Machine handles many long-term projects. We consistently manufacture quality parts month after month - year after year.
- ▶ When precision is critical, Golis Machine can deliver. We can hold tolerances as small as + .0001”.
- ▶ We consistently exceed our customer’s standards.
- ▶ Complete confidentiality – Your proprietary information is safe with us.

**ITAR REGISTERED**  
Registration Code M30466

Certification

## Quality Assured at Golis Machine

Golis Machine strives to achieve the highest levels of quality throughout all processes of part realization. Stringent inspections are performed throughout the manufacturing process to assure quality and dimensional conformity. Through First Article on each part run, inspection checks throughout the manufacturing process, and comprehensive final inspections, we ensure your parts will be right!

We assure the quality of our products through our Quality System;

- ▶ ISO 9001:2015 Certified
- ▶ ITAR Registered and Compliant
- ▶ Infor10 ERP (Enterprise Resource Planning) Express - (Visual)
- ▶ Material Resource Planning (MRP), Scheduling
- ▶ Strict Tracking System – from raw material to the finished product.
- ▶ Barcode System
- ▶ Intense Inspections
- ▶ C of C
- ▶ Material Certifications
- ▶ Material Traceability
- ▶ Continual Improvements

## QC Equipment

Golis utilizes Solid Works for our CAD capabilities and print development. Our Quality lab is equipped with high precision, high quality measuring instruments that are factory calibrated and maintained.

All of our computerized measuring equipment have SPC capabilities (Statistical Process Control), which gives Golis the ability to match larger OEMs consistency.

Golis Machine believes in providing exceptional quality in all of our products. Over the last 40+ years we have created a program to support this belief in a clean, modern facility, designed specifically for machining. Golis has consistently met and exceeded the guidelines in ISO9001 and has developed a culture of quality throughout our entire business.

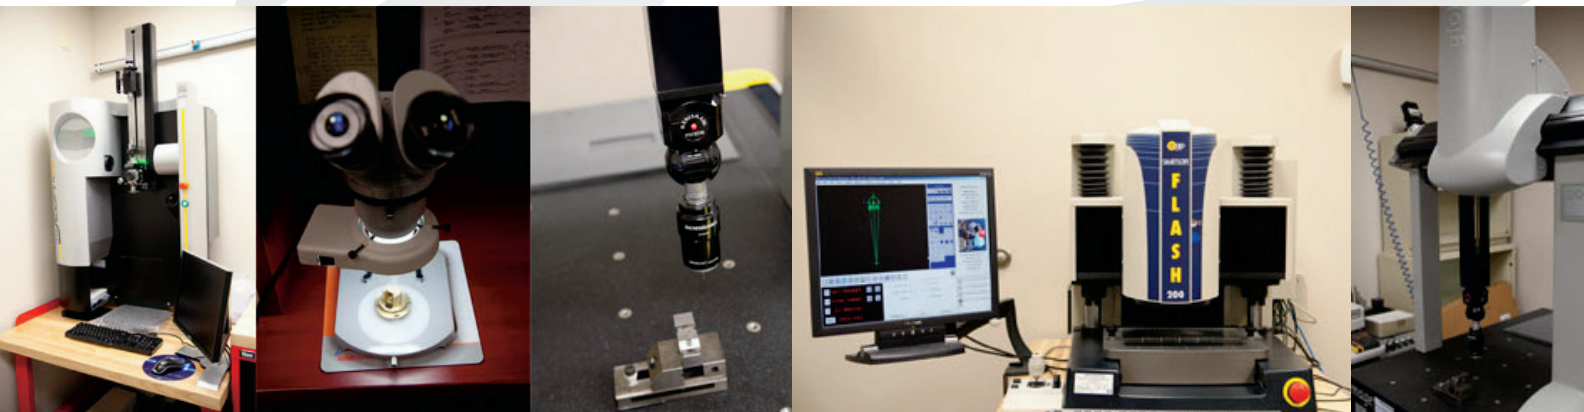

## Certifications:

**ITAR REGISTERED**  
Registration Code M30466

**ISO9001:2015**  
Certification

## CNC Machining

Your parts will be machined on our CNC work centers comprised of some of the latest tool technology in mills, lathes and EDM. We specialize in parts that can be picked up in one hand and machine the most complex shapes with tight tolerances. We offer machines that can make accurate parts; from your basic 2-axis round lathe blank, all the way to the complicated micro machining parts requiring 5-axis milling.

## EDM Machining

Wire EDM can easily machine complex parts and precision components out of hard conductive materials. It is possible to cut small odd-shaped angles, detailed contours and cavities in hardened steel as well as exotic metals. We can manufacture intricate parts for you accurately every time.

## Materials

Over 35+ years of precision machining experience has included manufacturing a broad range of materials such as: all types of stainless, titanium, steel, aluminum, brass, copper, plastics and exotic materials as well as customer supplied materials including castings and forgings. We can work with parts that require special needs such as high temps, tight tolerances and special materials.

## Finishing Department

Every part comes through the Finishing Department and is viewed using powerful scopes. Each part is carefully inspected and finished by hand to achieve the overall desired finish. We effectively and efficiently ensure part compliance to our customer's specifications and we can handle the most complex features.

We also provide a complete solution for precision beyond machining and hand finishing. We can take care of your needs for:

- Honing
- Surface grinding
- Electro-marking
- Peen marking
- Bead blasting
- Centrifugal vibratory finishing
- Ultrasonic Cleaning
- Heat treating
- Plating

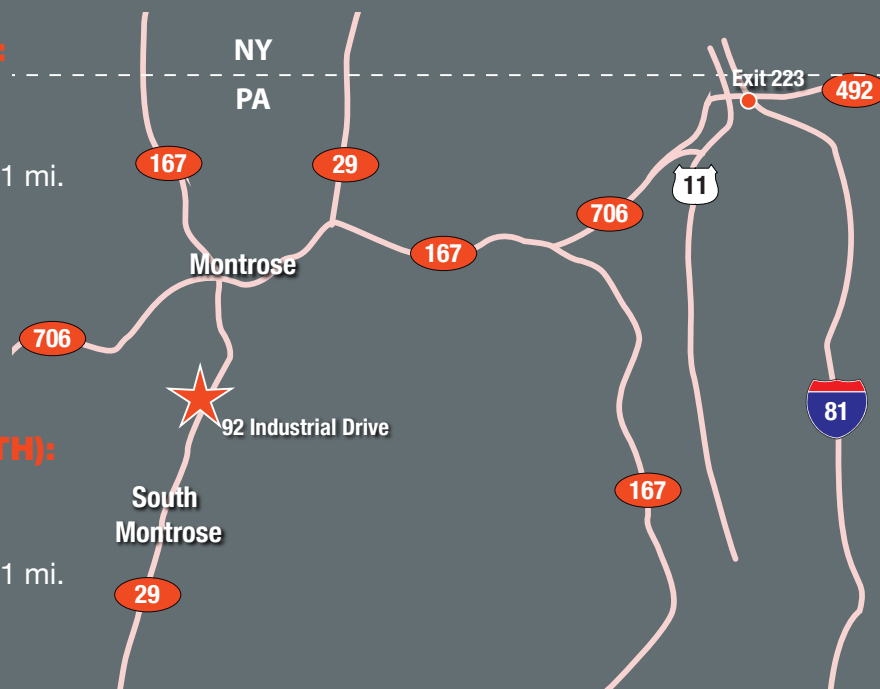

## DIRECTIONS TO GOLIS MACHINE INC.

### DIRECTIONS FROM SCRANTON, PA (SOUTH):

Take Route 81 North to PA Exit 223 (New Milford Exit)  
 At stop sign, turn left onto Route 492. Go 0.7 miles.  
 At stop sign, turn left onto US-11 South / Main St. Go 1.1 mi.  
 Turn right onto PA-706 West. Go 7.2 mi  
 Turn left onto PA-167/PA-29/PA-706 West. Go 1.2 mi.  
 Turn left onto PA-29/South Main St. Go 1.6 mi.  
 Turn left onto Industrial Drive.  
 Golis Machine Inc. is the second building on the right.
